Love around LYT's walls : learning and teaching is a work of heart!

As TWGHs LYT English teachers, we are not only passionate about teaching the English language but we also deeply care about our students and their well-being. We care about our students as much as other subject teachers. We try different ways to show love and kindness to our students. We always make sure that our curriculum is at our students levels, and we also try to be personal and social by making lots of eye contact, encouraging smiles, or making funny faces to tell them we love and respect them.

WORDS MATTER: We speak kindly when we interact with the little ones. It is a known fact that the manner we use to talk has a significant impact on others. Therefore, we speak positively and encourage language in all interactions with children to build stronger and warmer relationships for communication. Well let's practice some phrases.

Instead of:	We try this:
No Shouting!	Please try to use your soft voices...!
Don't do that!	Can I help you?
Listen to me!	Please pay attention everyone

WE KEEP A POSITIVE ATTITUDE: Students who struggle with their language skills can't understand everything we say, but they can read body language very well. We keep our attitude positive and warm to let them know that they matter. We connect with our children through fun. We try to make our lessons entertaining so children feel happy and eager to listen and cooperate with us. We also approach them to know more about their feelings, likes and dislikes.

We won't be surprised if our LYT students start doing some of these things with each other. When a culture of love and acceptance is cultivated, there's no telling where its impact will end. After all, a kind and loving heart is the best!

"Teach love, generosity, good manners and some of that will drift from the classroom to the home and who knows, the children will be educating the parents." — Roger Moore

Children also learn how to make "Natural Enzyme Cleaner" by using orange peels and bottles to turn waste into materials and reduce damage to the environment. In addition, children also participated in different planting workshops, where they learnt the joy and process of planting, and contributed to making the earth more green.

Parent - Child Planting Activities

親子種植活動

In order to cultivate children's sense of responsibility in taking care of plants and their interest in planting, our school held parent-child planting activities for K1, K2 and K3. On the day of the activity, each child planted plants with their parents excitedly, and promised to irrigate and fertilize their plants regularly, so that the school garden will become green and grassy. Children visit the school garden everyday with their families to water the plants (rice washed water) after school and pay attention to the growth of the plants. With the cooperation from home and school, creating a green environment for our children make their planting experience more enjoyable.

為培養幼兒對花草樹木照料的責任感和對種植的興趣，本校一連三日於各級舉行親子種植活動。活動當天，每位幼兒懷著興奮的心情，與爸媽一起種植，並承諾定時澆灌和施肥，令園圃種植變得綠草如茵。幼兒分享他們每天放學後會與家人一起到園圃澆花，留意著植物的成長情況，又會運用洗米水作施肥之用。可見在家校合作下，共創一個綠色環境給幼兒，能讓他們更享受種植的樂趣。

Garden Renovation

翻新園圃

"Green School Garden" is the core value that our school has been striving to create with parents and students over the years. In order to achieve the goal, school teachers and caring parent volunteers worked hard to plow, fertilize, sow and raise seedlings to rejuvenate the garden. In addition, our school also responds to the environmental protection idea of "reuse, recycling", and invites students and parents to transform waste into beautiful decoration and make the garden vibrant and lifelike. Making the campus greener not only improve the biodiversity of our school, but also allows children to participate in it, so that they can better understand the importance of different organisms to the ecological balance, and thus know how to respect nature.

「綠色環保園圃」是本校多年來致力與家長、學生共創的核心價值。為了達致目標，學校老師與充滿愛心的家長義工們一起落力翻耕、施肥、播種及育苗移種，使園圃重新充滿生氣。本校亦響應「循環再用，循環再造」的環保意念，邀請學生和家長把廢物變身為漂亮的裝飾物，令園圃朝氣蓬勃，栩栩如生。綠化校園不但能提高學校的生物多樣性外，令幼兒參與其中，能更了解不同生物對生態平衡的重要性，從而懂得尊重大自然。

We Wish You a Merry Christmas

歡「恩」迎聖誕

Every year, parents and children actively participate in Christmas activities, which are full of joy and surprises. With the easing of the epidemic, the school has participated in many community carol performances this year. This allows children to share their joy with the community. In addition, the school also set up a mailbox for Santa Claus, allowing children to write their Christmas wishes in English and send them to the Santa Claus Village in Finland, so as to inspire their creativity and improve their English skills. Hope every child's wish come true!

每一年，家長與幼兒都積極參與校內校外的聖誕活動，當中充滿歡欣與驚喜。隨著疫情緩和，今年學校參與了不少的社區頌歌表演，讓幼兒展示練習成果給社區人士欣賞。另外，學校亦設置了給聖誕老人的信箱，讓幼兒用英文寫下聖誕願望，並免費寄往在遠處的芬蘭的聖誕老人村，從中啟發他們的創意和提升英語表達能力。希望每一位幼兒的願望都能成真！
